**FA-300, UDACT-300A, DTC-300A Firmware Upgrade MSW-017 Firmware Upgrade Utility Program Release (ECO-07-011/25)**

The following product firmware files have been upgraded as follows:

- **FA-300** firmware has been upgraded from **version 1.5.0** to **version 1.5.1**.
- **UDACT-300A / DTC-300A** firmware has been upgraded from **version 1.0.1** to **version 1.0.2**.

The above firmware changes were made in order to comply with the new day light savings time.

**Start** 2<sup>nd</sup> Sunday in March @ 2.00 AM  
**End** 1<sup>st</sup> Sunday in November @ 2.00 AM

The new firmware files can be programmed into existing systems using the newly released MSW-017 Firmware Upgrade Utility Program **version 1.0.3**. The systems are factory defaulted with the daylight savings time feature disabled. If the daylight savings time is required; you must enable this feature through programming for automatic time change.

All firmware files and MSW-017 Firmware Upgrade Utility Program are available on the Mircom website; ESD; Public download section.

If you have any questions or concerns, please contact the Technical Support Department.
