

Mircom Introduces the TX3-Touch Telephone Access Systems

Vaughan, ON – Mircom, a global provider of advanced fire life safety systems and communication products is pleased to announce the launch of the TX3-Touch Telephone Access Systems.

The TX3-Touch Series are the most advanced visitor management and security systems available on the market today. They allow residential or commercial building tenants to communicate with visitors and grant or deny entry into the complex. The TX3-Touch Series is available in a stylish free-standing kiosk, flush or surface mount configurations.

All TX3-Touch models are constructed of heavy gauge stainless steel and are equipped with a full color 15-inch industrial grade touch screen display, 150 watts of impressive stereo sound and provisions for a built-in color camera, postal lock and card access control. The TX3-Touch supports both Autodialer (ADC) and No Phone Bill (NSL) directory listings with a site specific welcome message and screen saver. Beautifully crafted and glamorously designed, the TX3-Touch Series is designed to blend with virtually any lobby décor.
